PREFACE

This biennial publication, the last issue of which was published in 1965, gives information about the courses of study available at universities, deemed to be universities, institutions of national importance, colleges and other institutions of higher education in India as on 31st October, 1966. It also gives information about the organisational structure, jurisdiction, departments of studies, academic terms and the medium of examination in each university.

In view of the great demand for medical and technological education, an attempt has been made to provide general information usually required by candidates seeking admission to colleges providing these courses, e.g., total intake capacity, reservation of seats for backward classes and for different States, fees charged, last date for submitting applications for admission and date of the commencement of session, etc., for the academic year 1966-67. Moreover, the minimum admission requirements for and the duration of the first degree courses in various professional subjects have also been indicated.

The earlier editions of this Directory have been well received by students and parents in this country and abroad. I hope that they will find this volume equally useful.

My thanks are due to the Universities, State Governments and the professional, technical and other institutions listed herein without whose cooperation this Directory would not have been possible.
